

Pranav Vikas **Air-conditioning Solutions**

Pranav Vikas is recognized for its cutting-edge technology and consistently innovative air-conditioning solutions developed at its high-quality R&D center. The team employed design optimization techniques to minimize the weight of numerous components including the HVAC heat exchangers, condenser, heater core and the engine cooling parts. In addition, part count was reduced to save cost.

Category:
Module

Application:
2016 Tata Motors Safari

Weight Savings:
3.5lbs when compared to
previous models

Methodology:
Structural Optimization
